

*...the Christian story of God descending from the heights of absolute being into humanity; down further still...down to the very roots and seabed of nature He has created. But He goes down to come up again and bring the whole world up with Him...think of a diver, first reducing himself to nakedness, then glancing in mid-air, then pushing down through green*

*...to descend. He comes down, down into time and space, down into the very roots and seabed of nature to come up again and bring the whole world up with Him...think of a diver, first reducing himself to nakedness, then glancing in mid-air, then gone with a splash, vanishing and warm water into black and cold*
